FORMAL NOTICE

TO: All Residents of Country Village, Guilderland, NY
FROM: Steven Oliver, Town of Guilderland Highway Superintendent
DATE: December 3, 2015
RE: Winter Street Parking

With the snow season soon upon us and the ongoing difficulties this highway department has had in the past with vehicles parked in the roadways during snow removal; it has become necessary to send out this notice. It is the responsibility of the highway department to keep roadways open and as safe as possible and we are not able to do this with the vehicles parking on the roadways in the Country Village area.

Let it be known that the following is Formal Notice:

- Vehicles will be towed under New York State Highway Law #319 – Obstructions and Their Removal.
- Cost of towing will be placed upon owner under Law #157 – Assessment of Cost Against Owners and Occupants.
- The depositing of snow back onto the roadways (this includes after Town snow plows have plowed street) is a violation under Penal Law #214.

It is our hope that none of these violations will continue to take place and that we will not have to take the above mentioned action in the Country Village neighborhood.

The Town of Guilderland Highway Department thanks you for your cooperation and assistance in these matters.
